

CENTRO INOX

SMR Group in collaboration with Centro Inox presents:

STAINLESS STEEL MARKET SEMINAR SPECIAL FOCUS ON ITALY

Tuesday, 7th June 2016, Holiday Inn Milan Assago, Italy

In our dynamic stainless steel industry, continuous training is required to keep up-to-date with the ever changing market environment. Since more than 20 years, the team members of the SMR Group around Markus Moll, are not just following the global stainless steel market, but are at the forefront, even anticipating important industry trends.

This market seminar gives an overview on the latest news and trends of the Italian and European stainless steel markets. All participants will receive concrete and relevant market figures, which can be used as an independent expert opinion for the internal budget planning and strategic decision making processes.

The seminar will be held on **Tuesday, 7th June 2016** at the **Holiday Inn Milan Assago** congress centre and starts at 9.30 a.m. The seminar is split into 4 different sessions discussing various aspects of the stainless steel industry. **The official language of the seminar will be English.**

A TRANSLATION SERVICE IN ITALIAN WILL BE PROVIDED.

09.00-09.30: Delegate registration

09.30-11.00: Introduction, global and regional market trends, ranking of the top producers for stainless steel flat & long products, analysis of the industry profitability, development of international trade flows, effects of dumping duties (EU and Italy), etc.

11.00-11.30: Refreshment & Networking Break

11.30-13.00: News and trends for raw materials (scrap, nickel, chromium, molybdenum) and influence on stainless steel prices and alloy surcharges

13.00-14.30: Lunch & Networking Break

14.30-15.30: Detailed market figures for Italy and other main European markets (production, consumption, imports, exports) for each product form (flat products, long products, tube&pipe), import/export trends, discussion of the end use structure in Italy and Europe

15.30-16.00: Refreshment & Networking Break

16.00-17.00: Outlook 2016 for Italy and the main European & global markets, important trends in the individual end use segments (consumer goods, architecture building and construction, transportation, industrial applications)

Don't miss this training opportunity – the number of seats is limited!
